## WORK AT INSANE HOSPITAL

Building Committee Receives Bids for Grading and will Award Contract Soon-Three Ward Buildings, Laboratory and Fire Station to be Built.

For grading at the Norwich state Torrance, Henry T. Morgan, Edward to part of which is to be completed November 1st and the remainder company, Post & Ridden, T. J. Dodd. hospital, part of which is to be completed November 1st and the remainder by the 1st of April, 1910, the building committee held a meeting on Friday, at which time the bids were opened, being received from many contractors. In all there are about 25,000 cubic yards of dirt to be removed, about a five foot cut being made in front of the administration building. The dirt which is removed will be used in grading about the grounds, and it is the idea of the committee to have the contractor start work as soon as he can assemble the men and tools. The contract was not awarded, but the committee has decided upon the lowest bidder, and after a conference with him the papers will probably be signed. The following submitted bids: Casper K. Balley, Charles R. Chapman, Nozzaryno Bencenti, W. B. Wilcox, Westerly Construction company, Wheeler & Burdick, H. E. Rogers Construction company, Ahearn Brothers, Archibald pleted November 1st and the remainder

company. Post & Rdden, T. J. Dodd.

The committee also examined plans for the new buildings which are to be erected at the hospital. These plans were rough akstches, but it was decided that three ward buildings will be erected for the accommodation of the increase in the number of commitments, these buildings being placed in the grounds following the general plan when the institution was laid out. There will be a laboratory building at the rear of the grounds, while a central first station will also be erected. These buildings have been previously described in the recommendations of Supt. Policok to the trustees.

The plans for the buildings were decided upon and the architects will proceed to perfect them and they will be ready for contractors to enter bids in a month or six weeks.

There are at present about 600 patients at the Norwich state hospital.

Turned Ankle on Hawser and Fell Overboard, Striking Wharf-Resuscitation Not Tried After Body Was

On Friday afternoon about 3 o'clock as Manuel De Pina, aged 35, was walking along the deck of the barge E. M. Dunn, which is being unloaded at the coal pocket of A. L. Potter & Co. in the Yantic river, he stepped on a hawser, turning his ankle, which sent him overboard backwards. As he fell his head and shoulder struck the wharf his head and shoulder struck the wharf his head and shoulder struck the whatf and he fell into the river. One or two people on the bridge saw him fall and shouted for help, but the body never came to the surface. Efforts were made to get the body and the barge was moved a short distance, but it was from eight to ten minutes before the body was located near the wharf where it went down. It was brought to the surface by Andrew Gerotte with an ice surface by Andrew Gerotte with an ice pick. He is employed by Kramer & Henderson and was driving by at the
